

## Product description

Human KRAS isoform 2A plays an important role in the regulation of cell proliferation and in promoting oncogenic events.

**Synonyms:** GTPase Kras, K-Ras 2, c-K-ras, Ki-Ras

**Product name** KRAS 2A

**Catalog number** RA105850

**Uniprot ID** P01116

## Protein sequence

## Product features and protocols

Purity

>90%  
as determined by SDS-PAGE

SDS-PAGE gel analysis of KRAS 2A protein Reducing/Heated conditions (RH) and stained with Coomassie blue.

## Other features

|                   |   |
|-------------------|---|
| Predicted MW      | 21.66 kDa   |
| Expression System | <i>E. coli</i>                                    |
| Purification Tag  | No tag  |
| Protein content   | Determined by Bradford assay with BSA as standard |
| Formulation       | Lyophilized from 50 mM Tris-HCl pH 8.0 buffer.    |

## Product preparation

For product preparation we recommend the following steps:

1. Briefly centrifuge the tube before opening
2. Reconstitute by adding the appropriate volume of ultrapure water for a final concentration of 200 µg/ml (e.g. 50 µl for 10 µg or 250 µl for 50 µg conditioning)
3. Vortex gently to insure complete dissolution
4. Wait 15 minutes at room temperature before proceeding further
5. Vortex gently again and centrifuge **briefly**

## Product storage

The product is lyophilized and shipped at room temperature. **Store at -80 °C upon receipt.**

After reconstitution, the protein can be preserved at 4°C for a few weeks.

### Avoid multiple freeze-thaw cycles

**The product is intended for research use only. Not for diagnostic or therapeutic use.**
